Data marked with * are mandatory to fill in, without these data the Invitation shall not be sent.

Simple is the data controller. Simple is the recipient of the data transmission carried out by User as data controller.

Within the Simple System you can send out Coupons, Tickets, messages, recommendations, invitations (hereinafter referred to as Invitation) promoting and encouraging the use of the Simple System and all the services therein, to unregistered third parties, whose email addresses you know (hereinafter referred to as Recipient).

When sending out such Invitations you only type in the Recipient's name and email address in the appropriate field of Simple System.

By sending out the Invitation you thereby accept that you can only send invitations to such Recipients who have given their prior consent to the use of their name and email address for the purpose of receiving such Invitations. We do not take responsibility if you failed to get the Recipient's consent to the use of his or her information in order to send out an Invitation or in case you provided an inaccurate email address of the Recipient. By sending out the Invitation you authorize us to send it out to the given Recipient in your name and on your behalf in such a way that due to some technical particularities the sender will appear as Simple, however the Invitation will be considered to have been sent by you and not us and the content of the Invitation will not be considered as an offer made by us, as advertisement or as another direct way of marketing communication.

By using the Invitation service you accept that a part of the Message is determined by us and that part cannot be erased by you. The content determined by us may include information about the Simple System and/or the Application.

You can only send messages that are corresponding with the law as well as with ethical, moral, and social norms. The message shall not include onscene, infringing contents or contents that unjustifiably infringe or contravene others' rights or legitimate interests. Moreover, the content determined by the sender shall not be defamatory or detrimental to Simple System, the Application, and the Service Provider as well as to their reputation.

The personal data of the Recipient provided by you (name and email address) are only stored for Invitation delivery purposes.

1.2.12. Sending of electronic direct marketing messages via e-mail, in-app or push notification or in any similar way

Data marked with * are mandatory to fill in, without these data it is not possible to participate in the prize game, promotion. Data controller is Simple.

1.2.14. Sending system messages via e-mail, in-app or push notification

Simple sends system messages to the registered Users from time to time. System messages are messages regarding the operation, service breakout, maintenance, troubleshooting, functions of Simple System, change of these functions, availability of new functions of Simple System, the range of the services available in Simple System, way of use of these services, the General Terms and Conditions and Privacy Notice of Simple System or the modification thereof, rights and obligations of the Users concerning Simple System and also including the confirmation messages, notifications, confirmations sent in connection with the use of the services in Simple System, electronic bills, receipts and invoices.

For the purpose of sending system messages, Simple manages the following personal data:

A	B	C	D	E	F
Subject	Data Category	Data origin	Purpose of data processing	Legal basis of data processing	Duration of data processing
User registered within Simple	name*	From Subject	Sending system messages in order to fulfil the contract	GDPR Article 6 (1) b Fulfilment of the contract	3 month after the termination of the contract

Data marked with * are mandatory to fill in, without these data it is not possible to send system messages. Data controller is Simple.

In case of push notifications the User may set in the Simple Application and on his/her Mobile device whether he/she wishes to receive automatic push notification. If the User does not switch on the automatic push notification function, Simple is able to send him/her push notification only for his/her request.

1.2.15. Data processing concerning questionnaires and other requests for data

Simple regularly sends questionnaires and requests for data to the Users concerning their opinion about the Simple System and the Services available therein, their behaviour related to the Simple services, their ownership, financial status or other characteristics, which can be connected to the Simple services. Simple sends those questionnaires and requests for data in e-mail, in-app messages, push notifications or displays them in any other electronic way. Simple processes the Users' personal data related to the questionnaire and requests for data and their answers of the questions in the following way:

A	B	C	D	E	F
Subject	Data Category	Data origin	Purpose of data processing	Legal basis of data processing	Duration of data processing
User registered in Simple System	name	From data subject	a) Increasing the effectiveness, further development of Simple Application, development of new products	In case of purposes in column D/a) és b): GDPR 6. cikk (1) bek. f) point: Legitimate interest In case of purpose in column D/c): GDPR 6. cikk (1) bek. a) point: Consent	Until deletion of Simple registration
	e-mail address	From data subject			Until deletion of Simple registration
	in case of push and in-app messages: Simple account	From data subject	b) measuring the use of Simple Application, preparing statistics		Until deletion of Simple registration
	answers of the questions	From data subject	c) profil making: analysing and predicting the personal characteristics and preferences of the Users and based on that sending customised offers, advertisements to the users who have granted separate consent to receiving electronic direct marketing messages		Until deletion of Simple registration

The data controller of the aforementioned data is Simple.

The legitimate interest:

- a) **Increasing the effectiveness, further development of Simple Application, development of new products:** Simple has legitimate business, economic interest to know the opinion of the Users about the Simple System, the Users' purchases and habits in the Simple System, their preferences and other personal characteristics related to the Simple services in order to develop the Simple System in such a way which meets the Users' expectations and answers real market needs.
- b) **Measuring the use of Simple Application, preparing statistics:** Simple has legitimate business, economic interest to know on the basis of the answers of the questionnaires that which services are used or not used by the Users, are there needs or there are not from the side of the Users, and to prepare business statistics based on those information which serve as the basis of business decisions.

The Users are entitled to object against the data processing based on legitimate interest which can be submitted to Simple in e-mail to ugyfelszolgalat@simple.hu e-mail address or in letter via post.

Simple uses the answers of the questionnaires for profiling based on automated decision making in case of the Users who have granted specific consent to it; Simple sends or displays targeted, online behaviour based electronic advertisements based on the result of profiling to the Users who have granted separate consent to receiving electronic direct marketing messages.

In case of those Users who have not granted consent to the profiling based on automated decision making but granted consent to receiving electronic direct marketing messages, Simple is profiling their answers of the questionnaire manually and sends or displays targeted, online behaviour based electronic advertisements to them based on the result of profiling.

In case of those Users who have not granted consent to receiving electronic direct marketing messages, Simple does not use the answers of the questionnaires for profiling and Simple does not send to them targeted, online behaviour based advertisements.

You find the detailed provisions for profiling in the next clause.

1.2.16. Data processing concerning the Cheque payment service

In the Cheque payment service during the reading of the QR code Simple as data processor processes Users' personal data necessary for fixing the QR code and fulfilling the payment in the transaction for the request and according to the instructions of Magyar Posta Zrt., on the basis of the agreement and data processing agreement concluded with Magyar Posta Zrt. Concerning this data processing Magyar Posta Zrt. is the data controller and Simple is data processor. The Privacy Notice of Magyar Posta Zrt. shall apply to this data processing.

Simple acts as Magyar Posta Zrt.'s data processor only in case of services initiated with reading the Post QR Code. Simple is data controller in connection with any other services, products available in Simple Application and with the general use of Simple Application and the present Privacy Notice shall apply for these data processing activities.

Simple processes for the request and instructions of Magyar POosta Zrt. the following personal data as data processor:

- Status of the payment
- VPOS bank ID
- e-mail address
- transaction ID.

Magyar Posta Zrt. as data controller determines the purpose, legal basis, duration of the aforementioned data processing in its Privacy Notice.

- b) **Measuring the use of Simple Application, preparing statistics:** legal basis is GDPR (1) f) point: Legitimate interest Simple has legitimate business, economic interest to know on the basis of the answers of the questionnaires that which services are used or not used by the Users, are there needs or there are not from the side of the Users, and to prepare business statistics based on those information which serve as the basis of business decisions.
- c) **Profiling and based on that sending or displaying targeted online behaviour based advertisement:** assigning the aforementioned database to the profile of the User created in the Simple Application, making profile of the User, analysing and predicting personal characteristics and preferences of the User and based on that sending or displaying customised offers and advertisements to those Users who have granted separate consent to receiving direct marketing messages.

In case of data processing based on legitimate interest the User is entitled to object; in that case we do not process their data further for that purpose and on the basis of legitimate interest.

B) Information about profiling based on automated decision making

We make profiling with decision making based on automated data processing in case of Users who have granted specific consent to that according to articles 6 (1) a) and 22 (2) c) of GDPR (legal basis of data processing is Consent). We use the profile data and characteristics based on this profiling for direct marketing purposes, e.g. for sending targeted, online behavior based advertisement only in case of Users who have granted specific consent to receiving direct marketing messages.

In case of profiling based on automated decision-making, the Users have the following rights:

- **the User is entitled to request human intervention,**
- **the User is entitled to express their standpoint,**
- **the User is entitled to submit a complaint against the decision made in such a way to the Simple.**

The User can submit his statement for exercising its aforementioned rights to Simple via e-mail sent to the e-mail address of ugyfelszolgalat@simple.hu or in post letter, in every case in written format.

According to Article 13 (2) f) of the GDPR, Simple provides the Users with the following information about profiling based on automated decision-making:

- **significance and consequences of profiling based on automated decision-making for the User** are that he will receive marketing messages and marketing messages will be displayed to him which better meet his personal characteristics, range of interest, purchase habits, expectable predicted behaviour based on the result of the profiling carried out with automated decision-making. The User will not be out of any advantages or allowances, the price of the services remains the same, such kind of profiling based on automated decision-making will not have legal effect and will not affect him significantly.
- **logic applied during the profiling based on automated decision-making:** we assign the data collected about the User to the User, after that we make conclusions from the data collected of what are the preferences of the User, what kind of range of interest the User have, which services and how will the User use on the basis of his existing purchases and his online behaviour related to the Simple System, and based on those data we display or send advertisements which meet the aforementioned conclusions to the User.

In case of those Users who have not granted consent to the profiling based on automated decision making, we are profiling their answers of the questionnaire manually and we do not use automated decision-making; we use the profile data and characteristics originating from manual profiling for direct marketing purposes, e.g. for sending targeted, online behaviour based advertisements only to such Users who also have granted specific consent to receiving direct marketing messages.

In case of those Users who have not granted consent to receiving electronic direct marketing messages, Simple does not use profiling for direct marketing purposes with or without automated decision-making, we do not send to them targeted, online behaviour based advertisement. We use the data of those Users for the purpose of increasing the effectiveness, further development of Simple Application, development of new products and for measuring the use of Simple Application, preparing statistics. Legal basis of those data processing activities are Legitimate interest according to article 6 (1) f) point of GDPR.

For profiling we use Facebook Custom Audiences, Facebook Pixel and Google Analytics services. In order to reach the aforementioned goal in the framework of Facebook Custom Audience services we upload your e-mail address and phone identification number into the Facebook's system. In case of Facebook Pixel and Google Analytics we use your data collected by them and we on an ad hoc basis combine with your data collected by us. Simple is the data controller of the data we forward to Facebook and Google as well as of the data received from them by us. Facebook and Google are the data controllers of the data collected by them. Facebook and Google is the data processor acting on behalf of Simple in case of the data collected by Simple and forwarded to them by Simple.

C) Information about the cookies we use:

It is necessary to put cookies on the user's device for the use of Facebook Pixel and Google Analytics. We use Facebook Pixel also on the Website and in the Simple Application for advertising and Website, Simple Application analytics. Facebook Pixel puts cookies on the devices browsing the Website and/or using the Simple Application, the purposes of which are the following: creating appropriate advertising audience, measuring cross device conversions, targeting and optimising advertisements for the relevant audience, displaying personalized advertisements, preparing reports of the visitors of the Website and the application. 6. How do we ensure the safety of your data?

We follow an extensive information security ruleset regarding the provision of safety concerning the data and information under our governance, the knowing and following of which is mandatory for all our staff.

Our staff is regularly trained and coached in matters of data and information security.

6.1. Data security in IT infrastructure

We store personal data on our central server, to which only a select and close employee group have access, per strict access control rules. We regularly test and check our IT systems in order to ensure and maintain data and information security.

We fulfil data security obligations by complying with the PCI DSS certificate, which entails enacting the strictest banking security regulations regarding our systems and our data governance.

Office workstations are password protected, third-party storage devices are restricted and may only be used following approval.

Protection against malicious software is provided regarding all of the systems and system elements of the Service Provider.

During the planning, development, testing and operation of programs, applications and tools, we address security functions separately and with emphasis.

When allocating authorisations to our IT systems, we pay close attention to the protection of data (e.g. passwords, authorisations) affecting these systems.

6.2. Data security in communications

Regarding electronically forwarded messages and data, we conduct ourselves regarding our Key Management bylaws. In order to comply with the principle of safe transfer of data, we ensure the integrity of both the data of the controller and the user. For the prevention of data loss and damage, we use error detecting and correcting

procedures. The application's passes, authorization data, safety parameters and other data may only be forwarded under encryption We use network endpoint-to-endpoint authorization checking in order to ensure accountability and auditability.

Our implemented security measures detect unauthorized modifications, embedding and repetitive broadcasting. We prevent data loss and damage by fault detecting and correcting procedures and we ensure the prevention of deniability.

Regarding the network used for data transmission, we provide defense against illegal connection and eavesdropping per an adequate security level.

6.3. Data security in software development and programming

In development of the Simple Application, we implement the measures of data safety and security even into the planning stage, which we uphold during the entire course of development.

We separate the development environment from the live one, as well as development data from live data, and we depersonalise personal data in development, where possible.

We keep the requirements of safe coding in development, we use platform- and programming language-dependant technologies to avoid frequent damage risks, moreover, we follow the latest industry best practices regarding code examination (e.g. például OWASP Top 10 Guide, SANS CWE Top 25, CERT Secure Coding)

We constantly follow procedures to identify newfound vulnerabilities, we regularly coach our developers regarding data security and we standardise our programming techniques to avoid typical errors.

The checking of completed code is conducted pursuant to the principles of safe coding, and documented with alteration tracking procedures in order to ensure proper documentation.

6.4. Data security in document management

We comply with data security requirements in document management as well, which we stipulate in document management by-laws. We manage documents by pre-set access and authorization levels, based on the level of confidentiality regarding the documents. We follow strict and detailed rules regarding the destruction of documents, their storage and handling at all times.

6.5. Physical data security

In order to provide physical data security, we ensure our physical barriers are properly closed and locked, and we keep strict access control regarding our visitors at all times.

Our paper documents containing persona data are stored in a closed locker that is fire- and theft-proof, to which only a select few have authorised access.

The rooms where storage devices are placed in have been made to provide adequate protection against unauthorised access and breaking and entering, as well as fire and environmental damage. Data transit, as well as the storage of backups and archives is done in these confined locations.

Backup data storage units are stored in a reliably locked area, with containers having a minimum of 30 minutes' fireproofing time.

7. What procedure do we follow upon an incident?

Pursuant to applicable law, we report incidents to the supervisory authority within 72 hours of having gained knowledge thereof, and we also keep records of them. In cases regulated by applicable law, we also inform subjects of the incidents, where necessary.

8. When and how do we amend this notice?

Should the scope of data, or the circumstances of data management be subject to change, this notice shall be amended and published on www.simple.hu. Please pay attention to the amendments of this notice, as they contain important information regarding the management of your personal data.
